MOTHER GOOSE QUADRILLE. A Pleasant Entertainment at Sacred Heart

School-Opening to the Public Thursday A very pleasant entertainment is to be given to-morrow evening at the opening of the Sacred Heart school. It is entitled "A Mother Goose Quadrille," and is under the direction of Miss Eliz abeth C. Gaffney, and the participants are all well known and accomplished singers. They are the Misses Gertrude Caffrey, Louise Brennan, Josephine Reynois and Mary McDonough and Messrs Waish of Bridgeport, Rellly Phillips

nolds of this city.

The quadrille will have some very pretty figures, which will be executed by the persons named. At the same time the dancers will sing a medley of Mother Goose melodies. Attorney Matthew Reynolds will be the accompanist. Besides this a musical and literary program will be rendered. The program

Peter Cain and Professor Martin Rey-

will be printed later. Miss Gaffney has worked faithfully, and promises a very pleasant entertain ment. The fact that she is to direct it is sufficient guarantee that it will be most enjoyable. A very large attend-

ance is expected. The building will be then open for public Inspection.

RUBBER SHOP TO CLOSE.

L. Candee & Co.'s Factory Will Shut Down Next Saturday For a Month.

The following notice was posted in the rooms at L. Candee & Co.'s factory yesterday:

"This factory will close Saturday, February 9. Engines will start Friday. March 8. Boot and shoemakers will fit up Saturday, March 9. (Signed) L. CANDEE & CO."

The factory has been running on short time for several weeks, but will probably start on full time next month.

Took the Oath in California.

City Auditor Benjamin E. Brown yesterday received a telegram from George M. Grant, the recently elected member of the board of public works, to the effect that he had taken the oath of office before a commissioner for the state of Connecticut in California. He will not return to this city until some time next month. Commissioner Grant succeeds Commissioner Maley and it is just barely possible that he may attempt to continue in office on the ground that his successor has not legally qualified, as required by the charter. The first meeting of the new board will be held this

UNIVERSITY EXTENSION CENTER. Some Pathological Aspects of Some Social

Topics. The third course of lectures will be given by Prof. John J. McCook of Trinity college on "Some Pathological Aspects of Some Social Topics." The course of six lectures will be given it the hall of the Free Public library Thursday evenings, February 14, 21, 28; March 7, 14, 21, beginning at 8 o'clock.

There will be three lectures on 'Tramps," giving the results of statistical inquiries in 1893; one lecture on 'A Tramp's Dairy," giving extracts from a correspondence with a vaga-bond. Another lecture is on "Pauperism and Whisky," in which are given the results of original inquiries and ex-periments, and one lecture on "Venality," also giving the results of persona Investigations respecting bribery at lections, etc.

Prof. McCook's published articles on these themes have received widespread attention, and evidently the course will be of great interest.

Tickets for the course \$1. Single lectures 25 cents. On sale at the Free Public library and the E. P. Judd company's.

Dr. Frederick A. Cook, surgeon of the fire Peary Arctic expedition, thinks he will be able to start on his proposed Antarctic expedition September 15, Abby Smith, who died recently at the home of Justice Charles A. Johnson is Bozrah, was probably the oldest person in the state, her age being 113. For over 100 years "she worked round" for the neighbors and was very sprightly. After she had become disabled from doing active work she went to live with Justice Johnson's family, who treated her with the utmost kindness, so that her closing years were those of pleasantness and peace.

BOREAS RULES.

Jack Frost in Evidence-Bitter Cold Last Night-Waymer Wave Coming, However. The weather early yesterday morning, it is said, was the coldest of any morn ing but one of the season, and last night the thermometer shivered about zero. This was long before midnight. The cold wave is universal over the country east of the Missouri river, and even reaches down into the southern states although with no particular damage in that section. A warmer wave is said to be following the present frigid one from the northwest, and Mr. Myers of the weather bureau thinks it will begin to be moderate this afternoon. This winter has been remarkable all over the country for its severity. In the Alle ghany river the water is frozen in some places to the bottom, a depth of fifteen

At 8 o'clock yesterday morning the thermometer in this city registered 4 degrees above zero, and Monday night grees above zero, and Monday night was the coldest night of the winter up was the coldest night of the winter up to that time, excepting the night of December 27, when the mercury fell to

degrees above zero. Last evening at 9 o'clock at Klock' drug store the thermometer recorded only 2 degrees above; at Mr. Anthony's on Church street the mercury stood at degrees above.

A Boston dispatch last evening says: "The cold wave to-day covers nearly the entire region east of the Rocky mountains, with temperatures below zero in many parts of the north, and freezing weather as far south as central Texas. The zero line reaches south to Cincinnati and St. Louis. The following low readings occurred dur-

ing the night, (all below zero.) St. Vincent, Minn., 40; St. Paul, Minn., and Green Bay, Wis., 24; Omaha and Chicago, 14; Detroit, 8, Buffalo, 4; St Louis, 2.

The cold spell will attain its maxi mum severity in the east to-night, when in this city the temperature may fall to slightly below zero."

Sentiment and Sepulture. It is certain that a great majority

emong us do care about the disposal or our bodies. In every part of Europe the "resurrectionist," who was once regarded by scientific men of high char acter as a useful member of society, is ooked upon with as much abhorrence as a cannibal, and if caught at his gruesome trade would infallibly need energetic protection from the police to preserve his life, and in many countries would not get it. The horror of being dissected after death rises with nany men to a mania, and has repeatdly inspired legislative acts, drawn with a punctilious desire at once to for-ward the knowledge of surgeons and to respect a feeling too strong to be dealt with by any kind of argument. Millions of Christian men and women would be horrified at the idea of lying in unconsecrated ground, though not one of them could say clearly what was the difference between one side of the emetery, provided it were equally pro-

ected from desecration, and the other Every day good and pious men pick out the spot in which they should pre-fer to be buried, or leave the most earnest instructions not only that a certain spot shall be chosen, but that, if it be possible, the same spot shall be select d when the hour shall strike for the iearest of those who survive-a singular, yet as we all feel a mutual, inter-ference with their equal right of selection. We have known at least a dozen men penetrated with a wish to be bured in a country graveyard, a grove, garden, anywhere except in a suburba cemetery-a feeling which this particular writer, even while his reason repudiates it with scorp, acknowledges to be Never Despair! in his very blood and bones. The feeling of the very poor is different, being concentrated on the avoidance of a pauper funeral; but among the cultivated probably more than half form and ex-Many have had consumption and been } press a distinct wish as to the place and method of their own interment, and would feel acutely if, for any reason,

EPPS'S COCOA.

BREAKFAST—SUPPER.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided for our breakfast and supper a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nonrished frame."—Civil Service Gazette.

Made simply with boiling water or milk. Sold only in half-spound time by grocers, labelled thus:
